

BOND CONSTRUCTION FUNDS

Bond construction funds are used to account for financial resources to be used for the acquisition or construction of capital projects in the city's council-approved CIP using general obligation bonds and HURF revenue bonds. Beginning balances are based on prior bond issuance proceeds that have been received but not yet expended. Additional bond sales during the specified years, estimated investment and interest income, and expected grant/IGA revenues increase the beginning balances. Project expenses including carryover and operating expenses (e.g. advisor fees) reduce the beginning balances.
